

# Welcome to Reception

## Miss Lock/Mrs Wyatt/Mrs Johnson

### April – May 2025

#### Welcome back!

We are pleased to welcome you back and we hope that you all had a restful break and enjoyed any celebrations you had. As always, the children continue to make us proud with their attitude to learning and last half term it was lovely to meet with each of you at the parent consultations to celebrate your child's success and talk about how we will be continuing to support the children in their final term in Reception.

Last half term, the children really embraced our topic about growing. We started by learning about different vegetables and even tried to grow cress ourselves! We then looked at the traditional story of 'The Enormous Turnip' retelling this story in our own words with actions and having a go at writing longer captions in our books. We also celebrated Persian New Year, took part in World Book Day and enjoyed raising money for Comic Relief together. It was certainly a busy half term!

#### Under The Sea

This half term we will be learning about 'Under the Sea'. In this topic, we will learn about the different animals and plants that live on under the sea and read lots of stories about them. This will support the Understanding of the World strand of our curriculum as well as linking into our reading, writing and maths.

#### Reading & Phonics:

Read with  
Fred

This term, the children continue to follow the Read, Write, Inc scheme. As well as learning new sounds, they will recap the sounds they have already learnt to become confident when blending them together to read words and some shorter sentences. The children will continue to be taught in smaller groups by members of the Reception staff team. The children will be consolidating the use of 'Fred Fingers' for writing as part of their phonics sessions, listening to sounds and pinching them on their fingers before writing the word. We will also focus on correct letter formation ensuring the children are forming their letters correctly starting from the right place, the rhymes we say that go with the sounds helps to support children with this.

#### Maths:

In Maths this half term the children will be consolidating our number bonds to 5 including subtraction facts within these. We will be exploring wholes and parts. We will be looking at objects as 'a whole' and we will be cutting parts off to show 'not a whole'. We will then be looking at how we can split 'a whole' into parts, for example a whole cake and how we can cut it into two or four parts. You could challenge your children at home when preparing food...can you cut your banana into two parts that are the same? We will then be exploring numbers beyond 10. The children will become more familiar with numbers beyond 10. The children are already familiar with larger numbers from daily routines such as counting children. Have a look with your child at the numbers you see around you every day, this could be your door number, the numbers in the lift, numbers on buses and even in the shops, talk to your child about the numbers and tell them what they are if they are unsure.

As always at Little London we use Tapestry and Class Dojo to share your child's learning with you. We post some helpful videos and messages that will support your child with their learning at home.

Please can we remind you to log into these apps regularly to keep up to date with what your child is doing at school. If you need any support doing this, please speak to your class teacher.

If you have any questions, please don't hesitate to talk to us at the end of the day or get in touch by phone or on Class Dojo.

Many thanks,

The Reception Team

---

**Important Dates:**

School opens Tuesday 22nd April until Friday 23<sup>rd</sup> May

Bank holiday, school closed Monday 5<sup>th</sup> May

6<sup>th</sup> May 2-3pm Stay and Play session

---

**You can help by:**

- Reading with them each day, as well as asking questions about the book
- Talking with them as you walk to and from school and visit places.
- Looking at Tapestry and Class Dojo regularly, as we will be sharing what we have been learning in class and how you can help at home.
- Check weekly online homework
