

<p>Maths</p> 	<p>Reading</p> 	<p>Writing</p> 	<p>Science</p> 	<p>PSHE</p> 	
<p>The children will continue to follow the White Rose Maths scheme in their lessons and will be exploring two main topics this half-term. In our fractions topic, the children will compare, understand and order unit and non-unit fractions and also be able to use number lines and bar models to recognise equivalent fractions.</p> <p>Once we have completed this topic, the children will begin to explore the topic of mass and capacity, in which they will learn about topics such as using scales to measure mass in grams and kilograms, compare between different units of measure for mass and capacity and add and subtract mass, capacity and volume.</p>	<p>This half-term, the children will be developing their reading skills while exploring the text 'The Iron Man' by Ted Hughes.</p> <p>We will be developing our fluency skills through Fred's teaching sessions.</p>	<p>This half term, we will be writing an Informative Article about a creature of the children's choice. The children will be focusing on using ambitious vocabulary and utilising the information toolkit.</p> <p>We will begin with a hook day where we will be creating creating clay models of our chosen creatures.</p> <p>We will also be writing a journey tale based on the model text 'Nail Soup'.</p>	<p>In Science, children will be learning:</p> <ul style="list-style-type: none"> -that bodies need the right types and amount of nutrition. -that bodies cannot make their own food - to identify skeletons and their use. - the names of main body parts, muscles and main functions of the different areas. <p>It will also be Science week where the children will take part in some additional fun Science activities.</p>	<p>Children will be exploring the question- Why should we eat well and look after our teeth? This will link closely with the children's Science learning.</p>	
<p>Computing</p> 	<p>Art & Design</p> 	<p>Modern Foreign Languages- French & Mandarin</p> 	<p>PE</p> 	<p>Religious Education</p> 	<p>Music</p> 
<p>In Computing lessons, children will be working on emails and how to compose, send and reply to emails.</p>	<p>In DT, children will be using their knowledge of nutrition in Science to create a healthy meal. They will research different foods to use in their meal and create a design of a healthy meal. The children will learn the claw and bridge cutting techniques to safely cut a range of vegetables into sticks when creating their designs and finally, the children will evaluate their designs.</p>	<p>Children have a topic focus of Portraits. They will learn the French words for body parts and the different colours to help describe a person's appearance.</p> <p>In Mandarin this half term we will be learning the vocabulary for classroom objects and learning how to say please and thankyou</p>	<p>Both Y3 classes will be learning to develop their ball skills, agility and coordination in football. We will also be learning about how children can improve their exercise habits and fitness levels.</p>	<p>The focus question that we will be exploring will be- What Christians believe about a good life? The children will learn why is the bible such a special book for Christians and how they use the teachings from the bible to live a good life.</p>	<p>The children will be learning to study music linked to the human body and food and drink. They will learn about call and response, keeping a rhythm and beat and exploring accompaniment sounds.</p>
