

<p><b>Maths</b></p> 	<p><b>Reading</b></p> 	<p><b>Writing</b></p> 	<p><b>Science</b></p> 	<p><b>PSHE</b></p> 
<p>This term in maths, we will be learning about multiplication and division, building our understanding of grouping and sharing.</p> <p>We will also explore fractions, including recognising, finding, and working with parts of a whole.</p> <p>In addition, we will learn about position and direction, learning how to describe movement and turns using clear mathematical language.</p>	<p>This half term children will continue to develop confidence with Set 2 and Set 3 sounds and develop further fluency when reading words ‘at a glance’.</p> <p>They should be able to blend 4 sound and 5 sound words with greater fluency and become confident with reading and spelling more red words.</p> <p>Children will also develop their comprehension skills, aiming for a greater understanding of texts they read and answering key questions about characters, events and details.</p>	<p>This half term, children will be working towards writing a persuasive poster based on the story <i>Beware of Goldilocks</i>.</p> <p>In addition, we will learn a ‘beat the monster’ tale using the text <i>Supertato</i>. Children will learn how to retell the story, identify key story elements, and use vocabulary to create tension and action in their own writing. These activities will help develop their narrative skills, creativity, and ability to engage the reader.</p>	<p>In Science we will be learning about the human body and our senses. We will explore the different parts of the body and understand their functions, as well as investigate how our five senses help us to experience the world around us. Through hands-on activities, we will discover how we see, hear, smell, taste, and touch, and why these senses are important in our everyday lives.</p>	<p>In PSHE, we will focus on health and wellbeing by learning about who helps to keep us safe. We will talk about trusted adults, such as family members, teachers, and people in our community, and understand how they support and protect us.</p> <p>Children will also learn how to ask for help, recognise safe and unsafe situations, and begin to develop confidence in keeping themselves safe.</p>
<p><b>Computing</b></p> 	<p><b>Design Technology</b></p> 	<p><b>Mastering Number</b></p> 	<p><b>PE</b></p> 	<p><b>Music</b></p> 
<p>This half term the children will continue to develop their skills using a Chromebook.</p> <p>They will strengthen their navigation skills when using a laptop and keyboard. We will also be using our chrome book skills to learn how to make pictograms.</p>	<p>This term in DT, we will be learning about textiles by making paper doll puppets. Children will practise cutting, sticking, and using different attachments to add clothing and accessories to their puppets. This will help develop their fine motor skills, creativity, and understanding of how materials can be joined and decorated.</p>	<p>In Mastering Number, we will continue to develop a deep understanding on addition and subtraction by looking at worded number problems. This will build fluency with number facts within 10 whilst also promoting oracy and speaking in full sentences.</p>	<p>This term in PE, we will be focusing on target games. Children will practice aiming and throwing at different targets using a variety of equipment, developing their hand-eye coordination and accuracy.</p> <p>We will also work on strategies, teamwork, and taking turns, while having fun and staying active.</p>	<p>In Music this half term, our theme is “Our Body.”</p> <p>We will explore how we can use our bodies to make music through actions such as clapping, stamping, and tapping. Children will learn about rhythm and beat, and experiment with creating different sounds using body percussion.</p>
